**Logistics**

A Logistics Magazine supplement | Spring 2021

**David Wells**

Chief Executive,  
Logistics UK

## Welcome

The COVID-19 pandemic has accelerated a lot of trends that were already emerging in our industry. The restrictions placed on traditional high street retail have led to a boom in online shopping and home deliveries beyond most couriers' wildest dreams. Even when the restrictions on retail are eased, there's every reason to believe that consumers, who have come to enjoy and appreciate the convenience of having their goods delivered direct to their door, will not be returning to the high street in anything like the same numbers. It is my view that this is a trend that will not be reversed.

According to the latest Department for Transport figures, there were 4.1 million licensed vans in the UK in 2019, and van travel has grown significantly over the last 25 years, increasing 106% to 55.5 billion vehicle miles in 2019. When the 'working from home' revolution began in March 2020, traffic levels dropped significantly, but commercial vehicle traffic remained steady.

When it comes to light commercial vehicles, my view is that their number will continue to rise. With car traffic likely to be depressed for some time, vans will make up a significantly larger proportion of the vehicles on Britain's roads. Consequently, their contribution to the UK economy will grow massively.

But so too will the responsibilities of van operators to ensure that their fleets adhere to the highest standards of safety and compliance.

As one of the UK's biggest business groups, Logistics UK is uniquely well placed to help professionalise the industry. Our approach is both simple and practical: to offer a broad range of quality services and products to van operators, all designed to help them ensure their fleets remain safe, legal and compliant.

I urge you to keep this supplement as a useful reference. Not only does it offer an overview of the services offered by Logistics UK, it gives you details of our professional partners and suppliers too. We value highly both their commercial insight and commitment: to maintain the highest standards of safety and compliance.

# How Logistics UK can help you as a van operator

Logistics UK offers a broad range of services and products to help van operators improve their working practices and work towards certification by an industry-respected body.

## DRIVING UP STANDARDS

Our team of experts will be able to offer all the support you need to run your van operation compliantly, efficiently and sustainably. And that's true whether you are new to Logistics UK or are a long-established member.

## A CHAMPION AND A CHALLENGER

It is our goal to ensure the best possible deal for the logistics sector. We do this by influencing government and key decision makers on a regional, national and international level. We encourage you to make the most of your membership by engaging with our councils and free briefings.

## PEACE OF MIND

Knowing that your operation is being run safely, legally and compliantly will give you enormous peace of mind. Whatever you need clarifying, you can call the Member Advice Centre on 0370 60 50 000 (9am-5pm weekdays).

## Van Excellence

Van  
excellence

Centred around a set of best practice standards, this scheme aims to improve safety, efficiency and compliance and recognise excellence in van operations.

### WHAT IS VAN EXCELLENCE?

Designed with safety and efficiency at its core, Van Excellence recognises excellence and aims to improve operational standards. At its heart is the Van Excellence Code, which defines 'what good looks like' in van operations.

Facilitated and managed by Logistics UK, the scheme has been developed to allow operators to ensure their standards of operation meet the requirements, as laid out in the Code. This enables them to be recognised as van operators that follow a best practice framework and signals to their customers, clients, staff and supply chain that their operation adheres to the highest safety standards.

### WHAT ARE THE BENEFITS OF BECOMING A VAN EXCELLENCE ACCREDITED OPERATOR?

Demonstrating this level of excellence not only gives you external recognition that you have achieved the highest standards of operation and safety, reputation and confidence in internal processes, it entitles you to these offers and discounts too:

- Saving a minimum of 10% on your van fleet insurance
- Saving a minimum of 5% on long-term van hire
- Saving 25% on van graphics design, print and fitting
- Three months' free vehicle tracking subscription

Van operators that pass their audit and switch to our insurance partner McCarron Coates are eligible to have their Van Excellence audit costs paid for\*

\*Subject to agreement by Logistics UK's insurance partner and cost will only be reimbursed upon passing the audit and applies to your first audit only.

### THE VAN EXCELLENCE STANDARDS

The Van Excellence Standards represent the current minimum best practice standards required to ensure the safe operation of van fleets regardless of fleet size or their industry sector.

## Membership & policy

**Our membership packages provide you with the tools to keep your operation safe, efficient and compliant. As a Logistics UK member, we also champion your best interests when it comes to new transport policies.**

### ROAD OPERATOR MEMBERSHIP

#### Who is this membership for?

Whether you have just one HGV, a fleet of vans or a multi-national mixed fleet, Road Operator Membership is for you.

#### What benefits does membership bring?

Membership of Logistics UK unlocks access to a range of information, support, products and services to ensure that you are connected to the industry, compliant with governing regulations and confident in the efficiency and success of your transport function.

### INFORMATION AND ADVICE

Our position at the forefront of the logistics industry and policy formation ensures we can quickly pass on accurate and up-to-date information and advice via numerous channels such as:

- Member Advice Centre
- A dedicated Member Relations Manager in your area
- Regional Member Briefings
- Online compliance and advice
- Logistics UK *Yearbook of Road Transport Law*
- *Logistics Magazine*
- Weekly email news bulletins
- Traffic and weather alerts

### INFLUENCE AND REPRESENTATION

Our Councils offer members the opportunity to get actively involved in influencing Logistics UK's policy agenda. There are Regional and National Councils that cover issues affecting road, rail, sea and the wider supply chain and we have a key presence in the UK and Europe.

### OPERATIONAL AND BUSINESS SUPPORT

Logistics UK members get exclusive savings and typically pay 40% less than non-members across a range of our products and services including our Shop, vehicle inspections, tachograph services, training courses, events and more.

As well as making great savings you will be able to access a range of services that are exclusive to Logistics UK members. These include:

- Use of the Logistics UK member logo and vehicle stickers – use our member logo on your stationery and website
- Model Conditions of Carriage and Storage – endorsed by the insurance industry and reflecting the commercial interests of both the carrier and customer
- Fuel Price Information – receive advice from top industry experts and ensure you are saving on fuel purchases
- Vehicle Recovery – operated by the AA, Logistics UK Recovery is a cost effective 'pay as you go' vehicle recovery service
- Fuel Card – benefit from extensive cost savings of up to 10p per litre, fixed diesel prices, and peace of mind knowing you are in control of your fleet
- Driver Licence Checking – minimise the hassle and risk associated with checking whether your drivers are safe and legally compliant to operate your vehicles
- Fleet Management Software – provided in partnership with FleetCheck, lets you move away from spreadsheets or paper-based systems, to make fleet management easy and works for fleets of any size and mix.

### TAILOR YOUR MEMBERSHIP PACKAGE WITH THESE ADD-ON SUBSCRIPTIONS

- **Operator Licence Compliance and Information Service**  
OLCIS is designed for all those that are tasked with the operation of their organisation's operator licensed vehicle fleet.
- **European Road Freight Service**  
A subscription service available for all those involved in operating vehicles in and out of mainland Europe and beyond.
- **Branch membership**  
Branch membership is a cost-effective way of gaining full membership to Logistics UK as a depot of a full fee-paying organisation.

# Van Inspections

**Our Vehicle Inspection Service (VIS) offers industry-leading UKAS-certified inspections and compliance reporting, including gate exit checks to ensure your vehicles are leaving your premises safe and roadworthy.**

## ABOUT OUR SERVICE

Our vehicle inspections are carried out on a broad spectrum of vehicles, from vans and HGVs to buses and specialist lifting equipment. All our inspections are accredited by United Kingdom Accreditation Service (UKAS) and we

provide inspections to more than 1,000 operators nationally.

All VIS reports are available in Vision – allowing users to manage driver and fleet compliance via a single portal and providing a unique view of their organisations.

Logistics UK recently completed its 750,000th inspection and half of the inspections we carried out were Roadworthiness Inspections.

## WHY CHOOSE LOGISTICS UK'S VEHICLE INSPECTION SERVICE?

- **Cost savings**  
Using VIS can save you up to £260 annually per vehicle and increase MOT first-time pass rates by up to 13% above the national average, reducing vehicle downtime.
- **Easy-to-use reports**  
Use our online interactive Vision software to review reports and benchmark your company against industry KPIs.
- **First-class service**  
All our inspections and audits are accredited by UKAS) ensuring they are of the highest standard.
- **Reduction in defects**  
Statistics show that vehicles we've inspected have on average 66% less wheel defects and 57% less brake defects compared to the national average.

★ [www.logistics.org.uk/vis](http://www.logistics.org.uk/vis)

# PCN Administration

**This service is designed to monitor, administer and challenge the PCNs issued to your company to save you time and money.**

## WHAT IS THIS SERVICE?

To meet the requirements of some industry accreditation schemes, you are required to record, investigate and take action against all transport-related infringements. Penalty Charge Notices are included in these procedures.

Logistics UK's PCN Administration Service can take control and reduce fines for your operation: we will monitor, administer and challenge the PCNs issued to your company. Significant patterns that arise will be highlighted through our easy-to-use online reporting.

## IDENTIFYING PCN HOTSPOTS

By recognising 'hotspots' through regular reporting, Logistics UK's PCN experts will liaise with you to work out ways to reduce your PCNs. This may mean rescheduling deliveries, training drivers or working with the authority in question to overcome the challenges that lead to PCNs being issued.

## DOCUMENT AND RECORD PCNS

Reports and trends relating to 'hotspots' are available through our software and will provide you with information on:

- Drivers with high numbers of PCNs.
- The authorities issuing the most PCNs.

- The most common PCN codes.
- Which PCNs have been appealed, cancelled or rejected.
- Trends in PCN volume, cost savings and amount spent.

Logistics UK's Shop also produces a Penalty Charge Notice pad for your drivers to document and record any PCNs.

★ [www.logistics.org.uk/pcn](http://www.logistics.org.uk/pcn)

**VAN PARTNER SUPPLIERS' DIRECTORY**

The Van Partner scheme has more than 45 Partners who agree to support its aims by promoting the development of safe and efficient best practice and recognising excellence in the operation of vans and light commercial vehicles. They are also committed to publicising these aspirations across their media and PR contacts. All our partners contribute to the new Member-to-Member Portal with our Gold Partners supporting our van events during the year including the Van Operational Briefings, Future Van Conference, the prestigious Van Awards and Van Driver of the Year. We have Gold, Silver and Bronze Partners.

**LOGISTICS UK**  
GOLD VAN PARTNER

## The AA

The AA needs no introduction as the UK's most reliable breakdown cover provider, attending more than 3.2 million breakdowns per year – equivalent to one every nine seconds. Our cutting-edge technology and expert mechanics mean we can fix eight out of 10 vehicles at the roadside and get drivers back on the road within 30 minutes. And that's just the start.

Our commitment to innovation does not start and end at the roadside. We are continuously striving to satisfy and anticipate customer requirements.

Over three years ago we launched 'Smart Breakdown' services to our members which has helped us to gain invaluable insights into in-car diagnostics, translating raw data into predictive and preventative measures that will benefit all our customers, including those involved in running vehicle fleets.

Combined with investment in customer support services for electric vehicle charge post providers, this means that the AA has a unique platform from which to explore and spearhead future mobility solutions in this rapidly changing and high energy environment.

In 2021 the AA will strengthen its commitment to the commercial and operational transport sectors with the introduction of a number of van-related initiatives, both at the roadside and behind the scenes, reflecting our ambition to be the leading breakdown assistance service for van operators and drivers.

## Bott Ltd

We offer a full and comprehensive van conversion service, with more than 40 years of industry experience. Our aim is to fully understand the needs of all stakeholders, before delivering a compliant, durable and reliable solution for every customer.

Our expert team provides a full range of tailored services, including van racking, lighting, auxiliary power, communication equipment and vehicle graphics. As an official Logistics UK Van Gold Partner, we are also proud to support the drive towards improved operational standards, working with like-minded industry partners. This enables us to keep up to date with any changes in legislation and best practice guidelines, in order to provide our customers with the latest advice on staying compliant.

With electric and alternative fuels becoming an increasing fleet consideration, we also focus on understanding emerging vehicles and their suitability for various operational roles. This includes assessing challenges such as payload, range or the battery draw of planned additional on-board equipment. Through detailed staff training in the safe handling of these vehicles, we are also able to support our customers with vehicle choice and operative handover. Once the vehicle is in service, commitment to our customers continues throughout its life. Should an issue arise, you can be assured of speedy and comprehensive rectification through our dedicated aftersales service engineers.

If we can help support you and your business, please don't hesitate to get in touch via either phone or email. We look forward to speaking with you.

## Brigade

Brigade Electronics is a market-leading supplier of safety devices, with solutions to suit all commercial vehicle and industry types. Through 40 years of expertise, Brigade has developed a comprehensive range of products to reduce the risk of collision and maximise efficiency, assisting the driver whilst also protecting vulnerable road users. Brigade's comprehensive product portfolio includes 360° camera monitor systems, white sound® warning alarms, ultrasonic detection sensors, mobile digital recorders and radar systems.

Brigade has been pioneering the cause of vehicle safety since 1976, when it introduced the very first reversing alarm to Europe. It continues to lead the way in vehicle safety, pioneering, developing and patenting new technology. In addition to quality products, Brigade offers an outstanding installation service through its nationwide Business-Service-Partners (BSPs), a network of professional auto electricians who provide fitting and repair work for Brigade's onsite service warranties.

## Lex Autolease

Lex Autolease is the UK's largest vehicle leasing provider\* and has more than 85,000 light commercial vehicles in the fleet. Our Commercial Vehicle (CV) Specialist Engineers can work closely with you to understand your specific business and operational challenges. This includes managing complex builds, designs and specifications tailored to your business needs. Our range of leasing, funding and service options come together to form a fully bespoke and insight driven solution.

Our commercial vehicle expertise is evident throughout your complete journey with us with CV Specialist teams managing quote, order and delivery, purchase, supplier and build management and in-life.

We can also assist in shaping your fleet's environmental agenda, balancing your operational requirements with the need to reduce emissions. This includes implementing electric vehicles where suitable, designing the infrastructure to support it and also reviewing your fleet to identify opportunities to downsize vehicles and maximise utilisation.

We remain at the forefront of fleet trends and developments by sharing findings and strategies with trade organisations, vehicle manufacturers and industry specialists allowing you to respond to both today's commercial and regulatory environment and preparing your fleet for the future.

Subject to status, eligibility, terms and conditions apply.

## Quartix

The Quartix vehicle tracking system has been installed in over 600,000 vehicles and is helping more than 17,500 customers in the UK, Europe and the USA save on fuel, manage drivers and regulate risk.

Quartix analyses your data and generates simple to use reports that can be accessed on the web. These reports and displays help you to identify your best drivers, make sense of mileage and fuel costs and remove the need for regulatory admin. Live tracking, comprehensive driving style reports, driver timesheets, geofencing and management dashboards allow you to see where efficiencies can be made and help improve the safety of your teams.

The intuitive dashboard lets customers view Driver Style league tables alongside safe speed scores. Improving driving styles has proven to save up to 10% in fuel consumption as well as having a hugely positive impact on road user safety.

The award-winning system offers a wide range of valuable features for fleet managers. Customer industries range from construction, to security, landscaping and everything in between.

Winners of the Queen's Award for Enterprise 2018 for Innovation and Investor In Customer Gold Award 2019, Quartix is suitable for fleet sizes large or small and offers tiered packages to best suit the needs of your business. The Quartix product representatives will take you through a short, free demo of the system and demonstrate the many ways that vehicle tracking will benefit your business.

## Trade Vehicle Locks

TVL is the UK's premier supplier of vehicle security products. TVL designs and manufactures the latest innovation in vehicle security to keep your fleet secure and deter van theft or break-ins.

Vehicle crime is a costly inconvenience for fleets and TVL is continuously innovating to develop solutions to the ever-changing methods of attack being used.

Our in-house R&D team boast more than 85 years' worth of experience in the design and development of vehicle security solutions, in addition we can provide a design service to develop bespoke products for your fleet. Every product is subjected to rigorous anti-attack testing to TASSA\* standards and patented to guarantee they are a genuine TVL design.

TVL has the largest portfolio globally of security products that are approved by many vehicle manufacturers. We provide a fast delivery service which is supported by the nationwide TVL team of trained installers who can supply and fit all our products.

TVL is the home of vehicle security innovation and we work closely with many police forces crime prevention divisions to raise awareness and develop products to combat the latest method of attack on vehicles.

## LOGISTICS UK

### Recovery Service

#### Logistics UK Recovery

Operated by the AA, Logistics UK Recovery is a cost-effective 'pay as you go' vehicle recovery service. Breakdown assistance for your transport is vital in business, but it can represent a significant cost, particularly if your company is running a large number of vehicles including cars, vans or HGVs.

If your company does not want to take out insured cover, then Logistics UK's pay-for-use Recovery, operated by the AA, could be right for you. Entitlement to Recovery is free for Logistics UK members; you can decide which services you are likely to require should any of your vehicles break down, and your company only gets charged if it uses the services.

There is no annual fee too, so no breakdowns mean no cost!

### Fuel Card

#### Logistics UK Fuel Card

With this free-to-join scheme you can benefit from cost savings of up to 10p per litre, fixed diesel prices, and peace of mind knowing you are in control of your fleet. Logistics UK recognises that fuel costs account for a significant percentage of annual expenditure and their successful management can be pivotal to the success of our members' profitability. To address this, we constantly strive to secure the best fuel deals possible on behalf of our member companies to ensure that you can keep your fuel costs as low as possible.

As one of your member-only benefits, the Logistics UK Fuel Card has been developed in partnership with The Fuelcard Company to provide you with a host of benefits that include extensive cost savings through discounted fuel prices, interest free credit, risk management and streamlining of your administration processes.

With more than 3,000 multi-branded sites nationwide, the Logistics UK Fuel Card is designed to give you peace of mind that you are reducing your fuel costs, remaining fully informed and in control of your fleet, and reducing your administration time.

## LOGISTICS UK

### Fleet Management Software

#### Logistics UK Fleet Management Software

Powered by FleetCheck, this fleet management software is easy to use, with a flexible user interface that gives structure and support you can rely on.

By integrating with more than 250 data streams, the system enables your business to handle your fleet tasks efficiently, whilst embedding a robust audit trail to underpin your legal requirements.

You can keep up-to-date with more than 85 upcoming events thanks to the unique 'traffic light' alert system and have all the information you need at your fingertips with more than 600 report types.

Plus being cloud-based, our software gives you total access to all your data, with confidence that it is secure and backed-up.

■ For more information visit [www.logistics.org.uk/fmsvs](http://www.logistics.org.uk/fmsvs)

## LOGISTICS UK

### Fuel Price Information Service

#### Logistics UK's Fuel Price Information Service

Logistics UK's Fuel Price Information Service, provided in partnership with Portland, is an additional subscription service available to Logistics UK members, offering various levels of market information designed to make fuel purchasing simple and understandable.

Through access to fuel buying toolkits, we allow customers to see how fuel prices are calculated, enabling them to challenge suppliers on pricing, check costs against supplier/transport agreements and understand developments in the oil market.

You can access your choice of three toolkits, covering the full downstream fuel supply chain from rack to pump, to suit a range of purchase methods.

Each toolkit is customisable by fuel grade, allowing you to build a subscription that suits your needs.

■ For more information visit [www.logistics.org.uk/fpisvs](http://www.logistics.org.uk/fpisvs)

## **LOGISTICS UK**

### **Driver Licence Checking Service**

#### **Logistics UK Driver Licence Checking Service**

Health and safety legislation requires you to have a robust procedure and audit trail when it comes to driver licence checks.

Developed in conjunction with Licence Bureau, Logistics UK's Driver Licence Checking Service is only available for Logistics UK members and is designed to minimise the hassle and risk associated with checking whether your drivers are safe and legally compliant to operate your vehicles.

Managing this labour-intensive job on your behalf ensures your business will be operating legally whilst you immediately profit from time and cost savings.

■ For more information visit [www.logistics.org.uk/dlcsvs](http://www.logistics.org.uk/dlcsvs)

## **LOGISTICS UK**

### **Van Fleet Insurance**

#### **Van Fleet Insurance**

When it comes to insuring business vehicles you can feel confident that you're dealing with an insurer that truly understands the market. In association with McCarron Coates and QBE Insurance, Van Excellence introduces its van insurance product.

This bespoke product is designed for the needs of Van Excellence operators who will benefit from several product enhancements and service benefits at a competitive premium. Van operators who pass their audit and switch to our insurance partner McCarron Coates are eligible to have their Van Excellence audit costs paid for\* to support your Van Excellence journey.

Logistics UK member operators who switch to Logistics UK's insurance partner are eligible to have their Van Excellence audit costs paid for<sup>§</sup>.

\*Subject to agreement by Logistics UK's insurance partner and cost will only be reimbursed upon passing the audit and applies to your first audit only.

§Subject to agreement by Logistics UK's insurance partner.

- sales@bri-stor.co.uk
- www.bri-stor.co.uk

## Clarks Vehicle Conversions Ltd

As a family business established over 30 years, and being the first in our field to receive VCA (Vehicle Certification Agency) type approval, it is no wonder that Clarks is the country's most trusted producer of Welfare Vehicle conversions. Yet that's not all we provide – Racking Systems, Lifestyle Vehicles and Crew Carriers are all part of our extensive range.

We invest heavily in making sure our conversions meet the highest safety standards at UK and European levels. All our vehicles go through rigorous quality checks before leaving our Conversion Centre. Support does not stop there, we offer nationwide assistance for up to three years on all our conversions as standard.

- sales@cvcltd.co.uk
- www.van-conversion.co.uk

## CoolKit

Industry leader in the manufacture of refrigerated vehicles for the temperature-controlled transport industry. Our mission is to understand, innovate and lead. We understand customers' needs and provide vehicles fit for purpose. We innovate new methods, materials, ideas and products, providing value for money to our customers. We lead through excellence in customer service, innovation, integration and execution for a flawless customer experience. Customers benefit from many OEM Accreditations, Whole Vehicle Type Approval, ISO 9001 (Quality) and ISO 14001 (Environmental) Certifications, together with Investors in People and a number of manufacturers accreditations including Toyota, Volkswagen, Mercedes, Ford and Renault.

- www.coolkit.co.uk

## Ford Motor Company Ltd

**Ford of Britain** has been sales leader in the UK for passenger vehicles and commercial vehicles for 44 and 55 consecutive years respectively. The UK is Ford's third-largest global market and accounts for around 30 per cent of total Ford vehicle sales in Europe. Ford directly employs around 7,000 people in the UK, with thousands more employed in its extensive dealer network. The Ford Britain Dunton Campus in Essex is the home of its European commercial vehicle business and its powertrain engineering. Ford's manufacturing operations are a UK export success story with around 85 percent of engines and all transmissions exported to more than 15 countries on six continents. The value of these exports, including machined engine components, is around £1.5 billion annually.

- Customer Relationship Centre: 0203 5644444
- www.ford.co.uk

## Fraikin Ltd

**Do you need to reduce your operating costs, ensure your fleet compliance and improve environmental performance?** Fraikin's approach to rental, contract hire and fleet management is unique. Offering experienced independent advice to all our customers, we take time to know and understand your business before working in partnership to maximise your fleet performance. Analysing data from your fleet, we will tailor a strategy that is unique for your business. All with a financial structure that is predictable and beneficial.

Our changing industry offers real opportunities for all. Fraikin can help review and adapt fleets to ensure that they are making the very best contribution to the bottom line of the business. This flexible approach allows us to personalise services for customers across many business sectors.

**You Drive** your business growth while **We Care** for your fleet needs – connected technologies, compliance and maintenance.

\*Calls may be recorded for training purposes.

## KINTO UK Limited

Step Inside KINTO's commercial vehicle division and meet a team of LCV technicians managing over 16,000 specialist and equipped vehicles.

Our commercial vehicle team has a clear role in making sure you meet your service commitments. We also have expertise across a multitude of market sectors, including utilities, corporate, housing associations and not-for-profit.

With accurate, concise and timely management information, a focus on vehicle downtime, a well-managed support network, a range of cost effective and bespoke commercial vehicle fleet management solutions, and a service in line with your own SLAs (Service Level Agreements) and KPIs (Key Performance Indicators), why not talk to us and find out how we are different?

■ [www.kinto-uk.com](http://www.kinto-uk.com)

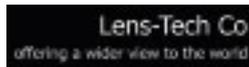

## LeasePlan UK

With over 50 years' experience and a fleet of more than 1.8 million vehicles across 32 countries, LeasePlan has the experience and resources to understand your specific requirements and provide the commercial vehicles that are right for you. In the UK, our customers include van fleets from large corporates to small businesses and we supply more than 65,000 vans and other commercial vehicles.

We are also committed to helping our clients maximise their vehicle uptime, through our in-life management capabilities, while our end-of-contract services provide a full vehicle lifecycle solution. There are consultancy services from a specialist team which applies our 'HGV philosophy' to light commercial vehicle fleets.

It's not for nothing that we are WhatVan's 'Leasing Company of the Year 2019' and the Green Fleet 'Leasing Company of the Year 2018'. We are also proud to have been an FTA Van Excellence Partner since 2010.

■ [www.leaseplan.com](http://www.leaseplan.com)

## Lens-Tech Co Ltd

We are experts at bending light – that is our business.

We design and manufacture Fresnel lenses in clear PVC and acrylic to help truck and van drivers see into their vehicle blind spots.

A **Hi Vue** Fresnel lens press-fits inside the truck's passenger window and is held firmly in place by its own 'peel-back' self-adhesive to provide an extra downwards view alongside the passenger door.

Our new **Vantage Point** van lens simply sticks on the van's nearside window to remove mirror blind spots behind and outwards of the side panel, so providing 30° of extra vision to reduce cyclist and other VRU (Vulnerable Road User) accidents.

■ [www.lens-tech.com](http://www.lens-tech.com)

## DAVIS | Licence Check Ltd

The DAVIS platform will increase efficiency – saving time and money.

As the move towards digital data management solutions picks up speed, the role of the spreadsheet as a database for storing driver and vehicle information is fast becoming a thing of the past.

Designed with the user in mind, DAVIS automatically schedules checks and reminders to ensure that an expiry, upload or a recheck deadline is never missed, giving your business peace of mind that your driver and vehicle compliance is taken care of. DAVIS has solutions for driving licence checking, grey/company fleet vehicle management plus online risk assessments and e-learning.

## Reflex Vehicle Hire

Reflex Vehicle Hire is a specialist in flexible, safe, intelligent vehicle provision. Supplying vehicles is just the start of our business offering; we provide the highest levels of expertise, service and fleet technology to support customers with insight that delivers a cost efficient and effective fleet.

Our vehicles are available nationwide on flexible hire terms with no early termination penalties and no contract, with 24-hour availability to support the business demands facing our clients.

We have created the Drive with Reflex suite of telematics, ensuring fleet customers are just as safe in rental vehicles as they are in company-owned vehicles.

- [Marketing@reflexvehiclehire.com](mailto:Marketing@reflexvehiclehire.com)

## Ridecell

Ridecell is a leading Mobility Management Platform provider. The Ridecell platform enable fleet operators, such as rental-, leasing-, logistics-, service fleet- companies, and operators of corporate carpools to effectively manage their fleet operations, from one system, to ensure compliance, optimise the utilisation of their vehicles, and lower the overall TCO for their fleet.

The Ridecell platform automates necessary actions triggered by vehicle data that control vehicle location, status, access, as well as maintenance, and repair orchestration. It provides an extensible solution for fleet owners to manage, and monetize, fleets for shared services, corporate motor pools, and trucking and logistics fleets.

For further information please contact Kenneth Malmberg, Director Market Development and Alliances on the email below.

each	£5.00	£6.00

# Safety Recommendations Van

### Ultrasonic Obstacle Detection

Sensor systems to inform the driver of objects within close proximity, whether moving or stationary. Perfect for road going commercial vehicles regularly operating in confined spaces and moving at low speeds

- 1** BS-4000W Backscan® sensor system  
4 sensor system increases safety when reversing.
- 2** FS-4000W Frontscan® sensor system  
4 sensor system covering the front blind spot.

### Camera Monitor Systems

Select series camera monitors are our best selling, mid-range systems that offer quality and features at a cost-effective price.

- 3** VBV-770M Select range 7" Digital LCD Monitor

- 4** VBV-070C Select range van camera  
Rear-view camera.

- 5** VBV-320C Compact, flush mount eyeball camera  
Nearside camera.  
VBV-320C Compact, flush mount eyeball camera  
Off-side camera.

- 6** DC-101 Dash cam recorder  
Screen-mounted, high definition front-view digital recorder

OR

- BE-822C Elite internal camera  
Mini-internal or front-view camera.

### Warning Alarm

bbs-tek, white sound alarms are the safest in the world due to their instant locatability and directional sound. The alarm is only heard in the danger zone, thus eliminating noise nuisance.

SA-BBS-97 bbs-tek® white sound® smart reversing alarm. 77-97 dB  
Continually adjusts to 5-10 decibels above ambient so ideal in varying noise level environments and urban areas.

or

BBS-82 bbs-tek® white sound® standard reversing alarm. 82 dB

### Digital Recording

Robust and reliable digital recording systems provide high quality video and data records. Ideally suited to large road going vehicles. Connect to Brigade's camera monitor system for a range of benefits.

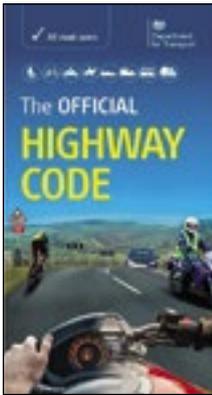

MDR-504-500 4 channel 500GB hard disk recorder

Also available in 8 channel, 4G and WiFi models with interchangeable 1TB and 2TB hard drives.

Bespoke Brigade-Electronics Van Packages available from Logistics UK's Shop. Call and talk to a Member of our Team today on 0371 711 1111\*

Safety recommendations for typical vehicle type. Selected products may change to suit different applications.

1-49	£1.00	£1.50
50-99	£0.80	£1.20
100+	£0.60	£0.80

# Security for your van available from Logistics UK Shop

## PedalBox

The PedalBox is a high security lockable box designed and developed to offer maximum protection against vehicle theft by blocking access to all of the vehicles pedal controls. Constructed from high grade steel and then finished with a high visibility yellow durable powder coat, the PedalBox can easily be seen from outside the vehicle even in low light.

## SlamHandle

There is a growing problem with van handles being attacked to gain access inside vehicles as thieves use vigorous force to rip them from their housing, manipulate the mechanism and release the door. Whilst other products offer limited protection, the SlamHandle is the only product which provides full protection against this break-in method. The SlamHandle is a solid stainless-steel handle which incorporates our SlamLock for ease of operation.

## CATLOC

The CATLOC is a vehicle specific solution to secure the catalytic converter/diesel particulate filter (DPF) from being removed as the system is held in place with fixings easily removed by using hand tools. Most CATLOC solutions utilise a boron chain and clamp to secure the exhaust system to a point on the chassis, other solutions like the plate system CATLOC offer reinforce the manufacturers fixing points to stop the exhaust system from being removed.

## RepLock

A direct replacement high security cylinder that prevents thieves from picking the driver's door lock to gain access to the vehicle. Thieves are picking/maliciously damaging the driver's door lock to gain access to the vehicles cab/load area to steal the contents of the vehicle or steal the vehicle in its entirety. Our unique direct replacement high security door lock replaces the OE Lock and requires no drilling or adjusting of the OE mechanism setup.

## ProPlate

A common method of vehicle break-ins is by forcing a screwdriver through a gap between the handle and the vehicle body to lever onto the back of the OE lock mimicking the action of the key being put into the door and being turned. The ProPlate is a neat stainless-steel shield that prevents thieves from attacking this vulnerable area. It is secured behind the manufacturer's door lock but clearly visible to a would-be thief, a great visual deterrent.

## OBD Port Protector (Key & Code)

Thieves have discovered a new way to steal vehicles by overriding the manufacturer's immobilisation system by connecting a Laptop/PDA/EDI Key into the OBD Socket and bypassing the vehicles built in immobiliser. The patented, lockable OBD Port Protector encompasses the OBD Port Plug in a secure box which is opened by entering the correct 4-digit code, preventing thieves from stealing your vehicle by this method. Non-invasive installation means the product is easily installed for instant protection with no special tools.

Seat Belt Sticker

100x100mm.

Code: 4495

	Member (ex VAT)	Non-member (ex VAT)
1-49	£1.00	£1.50
