

LOGISTICS UK

Vehicle Inspection Service

Industry leading UKAS-accredited inspections and compliance reporting covering HGVs, vans, passenger vehicles, tankers, specialist vehicles and mechanical handling equipment.

Vehicle Inspection Service (VIS) team

The VIS team of engineers covers the UK and Republic of Ireland and works with some of the biggest names in logistics across a wide range of industry sectors such as retail, construction and 3PL operations. Logistics UK also provides this service to a large number of SMEs.

You should regularly inspect your vehicles to:

- Ensure compliance with the latest legislative requirements.
- Reduce the risk of safety critical defects that could contribute to accidents.
- Save money on costly repairs that occur when defects are left.
- Prevent the possibility of vehicles being prohibited, drivers receiving graduated fixed penalties and assist with the improvement of your operator compliance risk score (OCRS).

Why choose Logistics UK's Vehicle Inspection Service?

Convenience

Wherever you are in the UK, you'll have access to one of our highly skilled engineers, all of whom are trained, accredited and audited to a national standard and hold industry recognised irtec licences in vehicle inspection.

Reports

VIS reports are supported by Vision – the leading compliance platform – specifically designed to enable you to drive efficiency, cut costs, increase performance and reduce risk. Using Vision allows you to identify areas that require attention within your vehicle or equipment fleet utilising the information contained in your reports.

Reduction in defects and cost saving

Statistics show that vehicles we have inspected have on average 66% less wheel defects and 57% less brake

defects compared to the national average. Proven reductions in vehicle defects result in reduced repair costs, vehicle downtime and risk of prohibitions.

Increased compliance

With a proven track record in reducing vehicle defects and our effective reporting service, your risk of non-compliance is minimised.

Independence and quality assurance

Being accredited to ISO/IEC 17020:2012 as a Type A Inspection Body means our inspections are a completely independent assessment supporting robust quality monitoring systems.

VIS services by operation

Commercial vehicle inspections

A variety of inspections of your vehicles are available to help ensure safety, compliance and reduced downtime due to faults. Our most popular services include roadworthiness, maintenance, pre-purchase due diligence inspections, as well as inspections of lifting equipment (Loler) and The Department for Environment, Food and Rural Affairs (Defra) Certificate of Approval for Road Vehicles Inspections.

MHE (mechanical handling equipment) and racking inspections

Our warehouse inspection service covers a large variety of mechanical handling equipment and is designed to make warehouse safety your main priority as well as save you the cost of non-compliance.

Passenger carrying vehicle inspections

A variety of inspections of your vehicles are available to help ensure safety, compliance and reduced downtime due to faults.

Tanker inspection and certification inspections

Comprehensive examinations of tankers and their associated equipment in accordance with the current road transport regulations for dangerous goods movement.
