Driver CPC

The Complete Solution

FTA TRAINING

Whatever your size, FTA has the Driver CPC solution

CONSORTIUM

100+

IN-COMPANY

PUBLIC

1-10

For organisations that have training experience and in-house training facilities, FTA's Driver CPC Consortium allows members the opportunity to deliver Driver CPC courses without having to apply for accreditation through JAUPT. FTA will supply course materials and development, provide trainer support and manage the administration function and deliver cost effective training to your driving team.

In-company courses could save you time and money. Our team of national trainers are experienced in the development and delivery of bespoke courses. We will match the expertise of the trainer to your specific needs, ensuring that we provide exactly what you require.

If you can only release one or two drivers at any one time, then our public training courses are available at venues across the UK.

For more information on any of the above information on training, please email enquiry@fta.co.uk or call 08717 11 22 22.

FTA will work with you to help identify the most practical, efficient and cost effective way to manage your Driver CPC programme. We pride ourselves on providing quality training solutions to suit your business requirements and driver training needs.

Benefits of training with FTA

An excellent standard of industry recognised training

Flexible training solutions to suit a variety of businesses

Cost effective solutions for members and non-members

A wealth of knowledge and shared experience from a team of professional trainers

Customised, bespoke courses available

"Quality training you'd expect from the industry leaders"
