

Society of Operations Engineers

“Being an SOE Corporate Partner enhances our already high standing in the teaching community, gives us credence with our customers, and helps to prove that we are professional in our approach to what we deliver.”

Nigel Powley, Managing Director,  
Woldsway Training

# Become an SOE Corporate Partner and elevate your professional standards

## Why partner with us?

### \*What is Professional Registration?

Professional registration is a suit of armor that provides liability protection for both the employer and employee.

It validates your workforce's experience and expertise by ensuring Engineering Council and Society for the Environment standards are followed through Continuing Professional Development.
